Center for monitoring business activities in the energy sector and investments (CEI) was established by the Government of the Republic of Croatia in March 2012. PPP sector at CEI is in charge of implementing public-private partnerships for construction, renovation and reconstruction of public buildings. All strategic requirements and demands are under CEI client (e.g. Ministries, counties, municipalities) responsibilities. CEI provides technical expertise and supports to clients from preparation phase through operational phase and monitoring of delivered services.

**PPP Project Neuropsychiatric Hospital Dr. Ivan Barbot Popovača**

- The Neuropsychiatric Hospital "Dr. Ivan Barbot" Popovača project will be executed under the public-private partnership (PPP) contract based model - availability-based payment. By executing a contract between the public body (Ministry of health) and the SPV (contractor), the client shall define public service standards, while the contractor undertakes to deliver such standards to the client for a fixed fee.

- In the course of project implementation, the private partner takes over from the public partner the finance and construction process-related obligations and risks, the risk of the availability of the public building that presupposes the risk of maintaining the public building in a functional state, all in accordance with agreed service standards.

- The public partner shall pay unitary charge for the delivered public building availability service standard in the period of building use. The unitary charge includes all payments of the public partner made to the private partner necessary for the settlement of overall costs and other project outflows within the defined lifespan of the building.

- PPP is regulated by the PPP Act (official gazette of the Republic of Croatia “Narodne novine” no. 78/12 & 152/14), Regulation on implementation of Public Private Partnership Projects (OG no. 88/12 & 15/15), and the Public Procurement Act (OG no. 90/11 & 83/13 & 143/13 & 13/14) relating to the procedures for awarding the public procurement contracts and concessions contracts.
